Swami Vivekananda had said, "The action one has done can't be destroyed until it has borne its fruit; no power in nature can stop it from yielding its results. To think that there is any imperfection - creates it. Thoughts of strength and perfection alone can cure it". As India celebrates the 150th birth anniversary of legendary Swami Vivekananda, let's try to imbibe and emulate his teachings. In a rapidly transforming world let's awaken our youth, a powerhouse, to not only face challenges of the future but also to inculcate the right values to create a world of peace, understanding and sustainable development wherein people can work and live in harmony.

Republic Day Celebrations

DESTINATION DUBAI

Kindling curiosity, nurturing creativity and enhancing the spirit of exploration, experimentation and experiential learning has always been the prime aim of education. Keeping this in mind, an educational overseas trip was organized for the students of the Senior Wing. The destination chosen was Dubai. Students had a wonderful time, participating in all the activities planned for them!

The educational part included a day spent on a desert safari where students experienced Arab and Bedouin life and learnt all about the customs and traditions of this great culture. The city tour was indeed engaging as students got to visit some of the world's most iconic buildings, including the Burj Al Arab and the Burj Khalifa. An interactive communication workshop on language, photography and radio encouraged our students to be active participants and learn about different methods of communication. The students came back transformed from the experience, brimming with anecdotes to tell. The entire experience has made them more confident, more expressive and more analytical.
