"How's the josh?"

A rhetoric that echoed in every corner of our country and became the national greeting for young and old alike. While the Pulwama massacre left us all teary eyed, the emotional upsurge soon turned into fury. The demand for revenge was at an all time high and in the midst of this, we had Wing Commander Abhinandan Varthaman, who became a sensation among Indians. Through this little space in our newsletter, we wish to pay our homage to all the war heroes, who ensure that we live a life of ease and go on with our daily lives. As you read this piece, say a little prayer for all those brave hearts standing at the LoC and show gratitude to our men in uniform who are responsible for our safety. Let us make no bones in proclaiming that our armed forces are great and let's keep the pride of being Indians in our hearts.

So that's the josh!

the accomplishments of our students. The India- Sri Lanka Foundation, headed by the Ambassadors of the two countries, works to enhance bilateral relations between the two countries. The selection of deserving students for this special exchange program to Siridhamma College, Galle, Sri Lanka was done by the teachers and our Principal, Ms. A. Aggarwal. Thank you for this wonderful opportunity given to my daughter, Simran Vohra. This exchange programme to Sri Lanka has boosted her confidence. I think the school truly recognizes hard work of the students and as parents we acknowledge and appreciate the school's gesture of rewarding students in this special way.

Deepak Vohra
F/O Simran Vohra

Student exchange program with Siridhamma college, Galle, Sri Lanka was different from other global exchange programs of our school. It was a real privilege for students to be a part of this program because they were selected by our Principal Ma'am. The fact that 7 students out of 10 were from board classes (X and XII), were still given chance to travel in the month of January, is highly commendable. This shows that the school recognizes and appreciates the hard work and sincerity of students. The trip was totally funded by India-Sri Lanka Foundation. Not only were the travel expenses taken care of, but the students were even given a stipend of 50 USD. Truly an honor for the students and teachers to get this opportunity.

Saranpreet Kaur
Teacher in Charge

I think my son Abhiroop is very lucky to be a part of the selected ten who got this amazing opportunity to travel to Sri Lanka. There are so many exchange programs happening in the school but this kind of an exchange program wherein the student were given money for extra expenses, is unbelievable. My message to all students – Hard work and sincerity will always pay.

Roopa Dutta
M/O Abhiroop Dutta

I cannot believe that out of almost 1000 students from classes IX-XII, it was I who was chosen for this prestigious program. I am still bewildered. I must admit that this has become a motivation for me, as I now wish to be much more responsible and prove to be an asset to my school.

Shubho Roy, XII A

Getting selected for a fully funded exchange program is, by far, the biggest honor a student can get. A mere thank you is not enough. I think I should be doing much more for the school. I am, indeed, proud to have been part of this selected group.

Yashmita, XII E

I would like to say this loud and clear-work hard, be sincere and respectful because these virtues really help us. I feel so proud for being selected for the program. It is difficult to believe that Principal ma'am, personally shortlisted all of us. Thank you ma'am.

Harsh Babbar, X F

I am highly grateful to my school for giving me the opportunity to be a part of an exchange program and visit Sri Lanka. It was a privilege to represent my school overseas. I am deeply indebted to my school for choosing me, considering the timeline of the project was just 2 months before my board examination. I thank my school for having faith in me.

This gives them accountability of how much waste each one produces and how it can be reduced and finally turned to ZERO which is the need of the hour. The best part is that there is no dustbin in the class and the class remains clean throughout the day. This group will now act as a catalyst to sensitize other classes of our school so that our school becomes zero waste school.

SCHOLASTIC LITERACY PRO WORKSHOP

A Scholastic Literacy Pro Program was conducted by Scholastic India on 19 March 2019 for a group of teachers of classes IV to VIII. The resource persons Ms. Loena Srivastava and Ms. Rachana talked about how important it is for students to develop their reading skills. They also gave details as to how Lexile leveling works.

Lexile measures are based on over 30 years of research and are the most widely adopted measure of reading ability and text difficulty. Lexile measures help educators and students select books at a level that will challenge them - not so difficult as to be frustrating, but difficult enough to encourage reading growth. The teachers were made aware of the Scholastic Literacy Pro which is a research-based, online assessment resource that provides teachers with evidence-based data so they are informed when making teaching/ learning decisions to develop their students into successful, proficient readers.
